

PROJECT EXPERTISE

Data Entry

Featured Clients:

Drug Enforcement Agency

TDEC provided data entry, scanning and forms processing services to get information into DEA systems for rapid use by its agents and investigators.

National Oceanic and Atmospheric Administration

TDEC keyed data from pdf-formatted Marine Mammal Stranding Reports into client-specified templates.

Florida Department of Health, Office of Vital Statistics

TDEC staff key entered and sight verified data from all State vital records including birth, death, marriage and divorce certificates.

Services:

- Review for completion
- Data verification
- Data extraction
- Key from paper, image
- Online keying (internet/private line)
- Mainframe integrated keying
- Quality control

Benefits:

- Improved operational efficiencies
- Reduced operational costs
- Improved constituent service
- Scalable resources
